INTRODUCTION

[Introduce yourself, and ask for the operator. Rephrase in your own words.]

The National Agricultural Statistics Service is collecting information on land management and conservation practices. The information collected will be used by the Natural Resources Conservation Service (NRCS) to assess the environmental benefits associated with the implementation and installation of conservation practices.

We need your help to make the information as accurate as possible. All conservation practices that are in place should be reported- whether they were installed as part of a Federal or State Cost-Share program, an industry or non-profit program, or by you (the operator) with no outside support. We encourage you to refer to your farm records during the interview.

Authority for collection of information on the Conservation Effects Assessment Project Report is under Title 7 of the U.S. Code and CIPSEA (Public Law 107-347). Response to this survey is **confidential** and **voluntary**. You may skip any question(s) you prefer not to answer.

SCREENING

Determine the Area of Interest

To focus the respondent on the area of interest, the location must be identified as follows.

1. **Selected field**

- For purposes of this survey, the actual field where the sample point is located must be identified. This location is referred to as the **selected field**.
- The survey collects information about conservation practices, cropping history and management practices being undertaken in the **selected field**.

2. **Conservation practices associated with the field.**

- Sometimes conservation practices are not actually located in the selected field but are adjacent to or **adjoining** the field (such as a wind break or filter strip). These practices should also be captured during the survey.
- For CEAP purposes, this area is referred to as the **conservation area**.

During this interview, the questions will be about the **SELECTED FIELD** and/or the associated **CONSERVATION AREA**.

SCREENING – NO SIGNAL AVAILABLE

ENUMERATOR NOTE: *[Show the aerial photography to respondent and locate the sample point. Identify the field associated with the point.]*

1. **Did you make any of the day-to-day farming/ranching decisions for the field containing this point in 2012?**

- ☐ **Yes** – *[If Yes continue.]*
☐ **No** – *[If No, conclude the interview and ask for the respondent's assistance in locating the correct operator.]*

ENUMERATOR NOTE: *[With the respondent, draw off the entire area that can be identified as the selected field and associated conservation area.]*

2. **In 2012, was any part of this field:**

- planted to a crop (**excluding** hay, fruits, nuts, citrus, greenhouse, and nursery crops); or
- idle cropland; or
- summer fallow
